SKILLS

- Cybersecurity Fundamentals
- Security Tools
- Programming Basics
- Communication

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Gujarati (Basic)

CERTIFICATES

- **Google Cybersecurity Professional Certificate**
- Basics of Cyber Crimes course from UniAthena

PROFILE

Aspiring Cybersecurity Professional with a strong foundation in Cyber Defense and Network Security, pursuing a B.Tech in Cybersecurity & Network at ITM (SLS) Baroda University. Passionate about safeguarding digital landscapes, I am dedicated to learning emerging trends and technologies to strengthen cyber defenses. Known for a proactive approach to threat mitigation and continuous improvement, I am eager to contribute to building a secure digital future.

EDUCATION

Shree Narayana International School　　2015 - 2020
Secondary Education (Class 6 – 10), GSEB
10th Result : 82%

SSV School 2　　2020 - 2022
Higher Secondary Education (Class 11 – 12, Science), GSEB
12th Result : 68%

ITM (SLS) Baroda University　　2023 - 2027
B.Tech – Computer Science & Engineering (CSN)
CGPA : 8.23

SKILLS

Computer Knowledge :
Comprehensive expertise in both hardware and software. Capable of assembling, upgrading, and troubleshooting PCs, managing drivers, BIOS/UEFI settings, and ensuring optimal performance. Skilled in installing, configuring, and operating various software and operating systems (Windows, Linux), including command-line usage and automation.

Cybersecurity Tools & Practices :
Hands-on experience with widely used security tools:
- Nmap – for port scanning, service enumeration, and network discovery
- Burp Suite – for intercepting and analyzing HTTP/S traffic during web application testing
- Metasploit – for exploitation testing, payload generation, and vulnerability analysis
- Wireshark – for in-depth packet analysis and monitoring network traffic

Microsoft Office 365 :
Mastered Microsoft Word, Excel, and PowerPoint. Skilled in automating spreadsheets, generating analytical reports, creating data dashboards, and delivering polished, professional documents and presentations.

PROJECTS

- Hand gesture mouse control using Python Programming
- Terminal-based portfolio, GUI-based portfolio website

Soft Skills :

Excellent in communication, problem-solving, adaptability, and teamwork. Proven ability to work efficiently in both independent roles and within dynamic teams, especially under pressure or tight deadlines.

Documentation :

Proficient in drafting technical documentation, cybersecurity reports, vulnerability assessments, project logs, and user guides. Focused on clarity, structure, and professionalism in all written content.
